

# ANITHA.G

## NET Full Stack Developer with AWS

📞 8220415078    ✉️ tha.anitha2@gmail.com    🔗 <https://www.linkedin.com/in/anitha-ganesan-0120a5301/>  
📍 Minjur, Chennai-601203

### SUMMARY

I am a seasoned Software Developer with over 9 years of extensive experience in designing and developing scalable web applications utilizing the Microsoft technology stack. My expertise in ASP.NET, .NET Core, Sitecore CMS, SQL Server, and Angular, combined with my proficiency in Agile methodologies and CI/CD pipeline implementation using Azure and AWS, allows me to deliver fast, secure, and reliable deployments in cloud environments

### EXPERIENCE

#### Senior Software Engineer

##### Tech Mahindra-BSMH

📅 09/2023 - 08/2024    📍 Chennai

Tech Mahindra is a leading provider of digital transformation services and technology solutions

- Analysed cross-tenant user and Role-Driven Tile Display System
- Integrated Azure AD for user authentication and AD group synchronization
- Led backend logic in .NET Core, React.js-based UI integration, database management with Azure Data Studio
- Implemented layered architecture: presentation (React), middleware (ASP.NET Core), backend logic, and Azure SQL data layer
- Created robust CI/CD pipelines using Jenkins and Ansible, automating deployments which decreased manual intervention by 40%

#### Sitecore Developer

##### Tech Mahindra - Kimberly-Clark

📅 04/2022 - 07/2023    📍 Chennai

Tech Mahindra partnered with Kimberly-Clark to enhance their digital content solutions

- Managed end-to-end content lifecycle using Sitecore CMS including creation, modification, and publishing of components, templates, and pages
- Collaborated with cross-functional teams to handle website launches and updates with 100% quality assurance
- Handled support and change request tickets using JIRA and Confluence
- Successfully led content publication and launch coordination individually, communicating directly with stakeholders

#### Senior Software Engineer

##### L&T Construction

📅 12/2021 - 04/2022

Material Schedule Tracker (MST) – Project Overview

- Developed MST app for item lifecycle tracking with SCM/EDMS integration and responsive dashboards.

### EDUCATION

#### B.E. in Electronics & Instrumentation Engineering

##### Anna University

📍 Chennai

#### Diploma in Computer Technology

##### Adhiparasakthi Polytechnics

📍 Chennai

#### Higher Secondary & Secondary Education

##### Sahayamatha Girls Higher Secondary School

📍 Minjur

### KEY ACHIEVEMENTS

#### CI/CD Automation

Created robust CI/CD pipelines using Jenkins and Ansible, decreasing manual intervention by 40%

#### Certifications

Angular 7- CREDO SYSTEMZ  
DevOps Program -GUVI HCL.

### LANGUAGES

#### English

Native

#### Tamil

Proficient

### SKILLS

Rest API

Ansible

Prometheus

ASP.NET Core

AWS

CI/CD

Azure

AD

Azure Data studio

EC2

GitHub

Docker

EKS

Jenkins

JIRA

Terraform

Lambda

SQL

Kubernetes

S3

Angular

### KEY PROJECTS

#### Terraform & EKS – Trend App

CI/CD pipeline for Dockerized React app using Jenkins, Terraform, AWS EKS, and GitHub-triggered automation.

<https://github.com/anithaganesan1/Trend>

#### Code pipeline-Brain App

CI/CD for React app on AWS EKS with Docker,Jenkins, CodePipeline; 60% faster deployment via custom scripts

<https://github.com/anithaganesan1/Brain>

#### Jenkins-React App

Dockerized a React app and deployed to AWS EC2 using Jenkins CI/CD pipeline integrated with GitHub.
